Career Objective

Detail-oriented BCA student with a strong foundation in data-driven thinking, user-focused problem solving, and structured analysis. Seeking a Primary Research Associate role where I can contribute to primary data collection, research analysis, and insight generation while leveraging my technical background to support informed decision-making.

Projects

Wanderlust – Data-Driven Travel Listing Platform

- Built a database-backed platform to store, manage, and retrieve structured listing and review data.
- Implemented search, filters, and categorization, enabling efficient data segmentation and analysis.
- Ensured data integrity and validation through authorization rules and controlled user actions.
- Worked with end-to-end data flow: user input → database storage → processed output.
- Analyzed user interactions and listings to understand usage patterns and performance metrics.
- Maintained clean schema design, supporting scalability and future reporting or BI integration.
- Achieved high accessibility and performance scores through optimization and structured data handling

Technical Skills

- Front-End: HTML5, CSS3, JavaScript, Bootstrap, React.js
- Back-End: Node.js, Express.js, MongoDB
- Programming Language: Python (Basics, Data Handling)
- Version Control: Git, GitHub
- Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Process Documentation
- Research & Analysis :- Primary data understanding & structuring, Requirement gathering & problem identification, Analytical thinking & insight summarization, Attention to detail in data validation

Education

Bachelor of Computer Applications (BCA) 2023 – 2026

Institute of Innovation in Technology and Management
Affiliated to Guru Gobind Singh Indraprastha University

Certifications & Training

- **Data Visualization using Power BI – Summer Training**
Institute of Innovation in Technology & Management
- **Full Stack Development (MERN) – Summer Training**
Institute of Innovation in Technology & Management
